### Katanga to Send Deputies to Leo'ville

ELISABETHVILLE (Reuters). — Katanga will send her representatives "immediately" to the Congo's national Parliament in Leopoldville as a "gesture of reconciliation," the Government announced here yesterday.

Katanga, which declared herself independent over a year ago, has so far boycotted the Leopoldville Parliament.

Yesterday's decision, announced after an extraordinary Cabinet meeting, is a reversal of Katanga's previous firm position to boycott the Parliament unless preceded by a summit meeting of Congolese leaders.

The President of Katanga, M. Moise Tshombe, asked foreign consultants here yesterday to request the United Nations to guarantee the safe return of his Deputies and Senators from Leopoldville.

The announcement, issued by the Presidency, said the sending of Katanga's representatives "was not a concession," "had in any way abandoned its actual position or its acquired rights." The action was "simply one of a pure sense of reconciliation towards Katanga's Congolese brothers," it stated.

Government sources said later the representatives would leave for Leopoldville when the U.N. had given them a written guarantee of safety.

**Ready to Meet Tshombe**  
In Leopoldville, Premier Cyrille Adoula said yesterday he was prepared to meet M. Tshombe for talks on the reintegration of Katanga with the rest of the Congo.

M. Adoula said it was untrue that he had turned down a request by M. Tshombe to meet in Leopoldville. He said M. Tshombe had never asked him for a meeting.

He added that the only thing M. Tshombe could tell him was that Katanga was prepared to join the Congo Republic and refuse its secession.

Interior Minister Christophe Gbenye returned to Leopoldville by air from Stanleyville yesterday after a week-long meeting with M. Antoine Gizenga. M. Gbenye told reporters that M. Gizenga was not ill and he expected him to come to Leopoldville early this week.

M. Gizenga has retained his former post of Prime Minister in the new Congolese Government.

The Congolese Parliament is expected to meet for a brief session this week.

**Jerusalem's Role  
Cited by Premier**

Jerusalem Post Reporter  
The significance of Jerusalem in the life of Israel and of world Jewry was the central theme of an address given last night by Prime Minister Ben-Gurion before a crowd of over 25,000 persons in Jerusalem's Gan Ha'atzmaut.

Describing the struggle for the city during the War of Liberation and its subsequent establishment as the Capital, Mr. Ben-Gurion expressed the hope that Jerusalem would eventually become a spiritual center for all mankind.

The Premier recalled that the U.N. Assembly decision of December 1948 to implement the internationalization of Jerusalem was met the next day by a Knesset resolution affirming the city as being the Capital of the State and to move both the Government and the Knesset within its boundaries.

Mr. Ben-Gurion calmly stopped the main trend of his address when Harul hecklers began shouting from the rear of the crowd.

"When people from this party threw stones at the Knesset several years ago (at the time of the debate on German reparations), the House continued its normal work. We live in a free country and this meeting will continue in the free way," the Prime Minister said to a cheering crowd.

Mr. Ben-Gurion opened his address by paying tribute to the late Mayor, Gershon Agron, "one of the pioneers of Jerusalem and founder of one of the most decent and important newspapers, although not in the Hebrew language, the only paper which to this day is still being published in the Capital."

In discussing the importance of universal free secondary school education, Mr. Ben-Gurion said the Government will have to introduce a law under which the wealthier section of the community will pay higher taxes to enable underprivileged children to study.

The Premier said peace with Israel's neighbors would be reached with the accomplishment of the five main tasks of the State: the settlement in Israel of one million immigrants from the Moslem countries, the Soviet Union and the Western world; the end of internal discrimination through a change in the electoral system; the settlement of the Negro; universal free education; and the continued strengthening of the Defense Forces.

**AFTER MIDNIGHT:**  
The visit to Israel of the President of Malaysia, M. Yusoff Ismail, and Mrs. Yusoff, and the Egyptian President, Gamal Abdel Nasser, from August 10 to August 12 was officially announced in Jerusalem last night.

### Ministers In Paris Agree On Negotiations

PARIS (AP). — The four Western Foreign Ministers, in the second-day of their meeting, yesterday urged the settlement of the Berlin problem by negotiations conducted on a reasonable basis.

An American spokesman said the U.S. British, French and West German Foreign Ministers reached a "complete unity of approach" on the Berlin problem by negotiations conducted on a reasonable basis.

But he added that they took no decision to approach the Soviet Union for an East-West conference on Berlin at the foreign ministers' level or at the summit.

The Ministers stood firmly behind the decisions of their governments designed to prevent the 2,500,000 persons in West Berlin from being swamped by the surrounding regime of East Germany. They characterized the Soviet threat to West Berlin as a threat to free men everywhere.

The Ministers also noted the increasing harassment directed against the people of East Germany seeking to go to West Berlin.

**'Depends on Russia'**  
Regarding negotiations on the Berlin issue, the U.S. spokesman said the Ministers recognized that the problem of Berlin should be dealt with by negotiation rather than by threats or unilateral action.

"However, a settlement of the issues depends on the willingness of the Soviet Union to negotiate on a reasonable basis," he added.

Answering questions, the American spokesman added that the four Ministers would today discuss Laos and other Asian and African problems.

He announced that Secretary of State Rusk would meet Chancellor Adenauer on Thursday morning at Cadenabbia on Lake Como, Italy, where the German leader is on holiday.

**Tokyo Asks Mikoyan  
Not to Stir Trouble**

TOKYO (Reuters). — The Japanese Government has asked Mikoyan, Soviet First Deputy Premier, to refrain from actions likely to lead to trouble with right-wing forces during his visit to Japan.

The Japanese Government said Mikoyan, Director of the Foreign Office Bureau of European and African Affairs, said yesterday.

He denied, however, that the Government had asked Mr. Mikoyan to cancel his visit because it feared right-wing violence.

**League Body Leaves for Kuwait**

A seven-member Arab League military mission arrived yesterday at Al-Tai, Saudi Arabia on its way to Kuwait to draw up plans for the replacement of British troops in Kuwait with an Arab task force.

The mission, composed of representatives of Lebanon, Saudi Arabia, the U.A.R. and Jordan, will stay overnight at Al-Tai for talks with King Saud and Saudi Arabian officials before heading for Kuwait.

The mission is headed by the Chairman of the Permanent Arab Military Committee, Lieutenant-General Ahmad Halim Ismail.

It stems from a League Council decision taken during a meeting in Cairo last month which was aimed to consider the Iraq-Kuwait dispute.

When the dispute arose, Britain sent troops at the request of the ruler of Kuwait. The British troops were admitted as a member of the League.

The Independent Baghdad newspaper, "Al-Thawra," commenting on the departure of the mission, said yesterday: "Shame upon the new levy."

These "League Idiots" were going to protect British interests in Kuwait so that Britain will be free to look after her interests elsewhere, the newspaper declared, adding: "Whether these new levies or Britain herself protects her interests, we shall liberate Kuwait." (ANA, Reuters)

**Cigarette Firm Warned  
On Anti-Israel Boycott**

WASHINGTON (INA). — The Italian-American Democratic Organizations of New York State will meet next Monday to call for a boycott of Raleigh and Viceroy cigarettes and several other brands manufactured by the Brown and Williamson Tobacco Co. of Louisville, Kentucky, unless the company renounces its policy of submission to the Arab boycott and refusal to ship to Israel.

Rep. Alfred E. Santangelo (Dem.-N.Y.) said yesterday he had written to the President of the company, Mr. W.R. Cutts, that the boycott call would be issued Monday unless the firm by that day offered satisfactory assurances that the boycott against shipment of its cigarettes to Israel will be lifted.

He chided the firm for following "an un-American trade policy abhorrent to the American way of life."

## Titov, 2nd Soviet Astronaut, Due To Land Today after 25-Hr. Orbit

US Orbit Is 'Months Away'

America's plans to get its own manned orbit programme underway depend on the success of the Atlas booster rocket, with any hope of matching yesterday's Russian orbital flight at least several months away, it is reported from Cape Canaveral, Florida.

Last week, a two-ton project Mercury space capsule was bolted to the top of an Atlas rocket. An attempt will be made later this month to hurl the space craft into a single orbit around the earth.

The big concern is the Atlas, presently America's only booster big enough for the task. The failure of the Atlas on three or four earlier capsule launches is the main reason the U.S. trails the Russian programme by a wide margin.

The only previous attempt to orbit the capsule came last April 25, when the Atlas failed to pitch over onto the proper course and the range safety officer destroyed it. An escape rocket pulled the capsule free and parachuted it unharmed into the ocean off Cape Canaveral.

The flight of Vostok II "is a remarkable achievement," with overtones of danger for the U.S. Chairman of the Senate Armed Services Committee, Sen. Richard B. Russell, said in Washington yesterday. He said he hoped it would "serve as another spur to our space technicians to bring the U.S. ahead of the Russians."

**Warsaw Powers  
Ready Berlin Move**

Announcement by the Warsaw Pact powers in Moscow yesterday that they had ordered steps to be prepared for concluding a German peace treaty and making Berlin a "free city," was regarded by Western diplomatic quarters in Paris as another move to increase diplomatic pressure on the West.

It was believed that the Warsaw Pact leaders, who met secretly for three days in Moscow, have given instructions for preparing a draft treaty and invitations to a peace conference meeting in Paris as another element, except that it put the weight of the world on the Russian side as another countries formally behind the Soviet Union's policy for an East German peace treaty.

The decision announced in the communiqué was made during a meeting in Moscow which ended on Saturday, attended by Communist Party leaders of the Warsaw Pact countries — Russia and the Communist East European countries.

**No Surprise**  
The communiqué was issued less than 48 hours before Premier Khrushchev's radio and television broadcast to the Soviet people at 1700 GMT today, (1900 local time).

The announcement did not come entirely as a surprise in Western quarters as Walter Ulbricht, East German party leader, was seen in Moscow and other East European leaders had been rumored to be in Moscow.

The communiqué said: "Instructions were issued at the meeting to prepare all necessary foreign, political and economic measures ensuring the conclusion of a German peace treaty and observance of its provisions, including those provisions which refer to the status of Berlin as a free city."

The Warsaw Pact meeting was also attended by delegates of "fraternal" parties of the Socialist countries of Asia," TASS said.

**Soviet Said Denying  
A-Aid to Peking**

NEW YORK (Reuters). — The chief U.S. negotiator at the nuclear test ban conference at Geneva, Mr. Arthur Dean, said last night that the Soviet Union had given several assurances to the U.S. that it was not helping Communist China to get nuclear weapons.

Appearing on a television discussion programme here, Mr. Dean said the Soviet Union had also indicated that it did not want to see the spread of nuclear weapons.

Although the negotiations on a possible nuclear test ban treaty had lasted more than three years, Mr. Dean said, he was "quite sure" the treaty would be agreed upon "sooner or later."

**Accord Seen on Cairo  
Arms Aid to Tunisia**

TUNISIAN. — U.A.R. military talks in Cairo have been concluded with "agreement on all principal points on U.A.R. military aid to Tunisia," the Cairo morning paper "Al-Ahram" said yesterday.

They have been going on for some days between the U.A.R. Armed Forces Command and Tunisian representative Mahmoud Shahrour, who is also Tunisian Ambassador to Lebanon and Special Envoy to Cairo. "Al-Ahram" quoted Shahrour as saying: "I am completely satisfied with the results of my meetings here."

In Tunis, the semi-official weekly newspaper "Afrigue Action" said yesterday the United States has promised it will do what it can to influence French President Charles de Gaulle on a shortsighted settlement.

US: Stop Arms  
Race in Space

HYANNIS P.O.R.T. Mass. (UPI). — President Kennedy and Adlai E. Stevenson called on the Soviet Union yesterday to join now in international action to prevent the arms race from spreading to outer space.

That was their response to the announcement that Russia had put another astronaut into orbit around the earth.

Mr. Stevenson, Ambassador to the U.N., visited the President overnight for a foreign policy conference and yesterday praised the latest Soviet feat. He said the President shared his views.

Associate White House News Secretary Andrew T. Hatcher said Mr. Stevenson's statement reflected Mr. Kennedy's views.

Mr. Stevenson attended a news conference before his departure and handed out a written comment on the Russian space exploit. "Russia's scientific contributions to the conquest of outer space command our admiration," he said.

"I am sure that this event sharpens the need for some international action to regulate the use of outer space for peaceful purposes and to keep the arms race from spreading to that field," he said.

Mr. Stevenson pointed to recent Kennedy proposals calling for international sharing of communications and weather satellites.

**GAGARIN, TITOV SWAP MESSAGES**

LONDON (AP). — Major Gherman Titov, riding high over the earth in Vostok II, last night received a message from his predecessor in space, Major Yuri Gagarin.

Then in Hailfuz, Nova Scotia, Gagarin told Titov in the message:

"Dear Gherman: I am with you with all my heart. I embrace you old chap and kiss you. I am following your flight with great excitement. I am confident in the successful conclusion of your flight which will yet again glorify our great motherland, our Soviet people."

Gagarin signed off: "See you soon."  
Moscow Radio said Titov had confirmed receipt.

Goes to Sleep for 7½ Hours

MOSCOW (AP). — The Soviet Union rocketed a space ship, Vostok II, into orbit yesterday. The pilot had lunch and supper as he circled the earth, then said goodnight by radio and went to sleep for the night. There were predictions he will land some time this morning after 24 hours aloft, and at least 17 trips around the earth.

The second Soviet spaceman, Major Gherman Stepanovich Titov, 26, who calls himself "The Eagle," thus dwarfed the pioneering orbital flight of his friend, Major Yuri Gagarin. Gagarin made but one circuit of the earth last April 12.

Moscow Radio said Titov in the longest sustained flight through space, went to bed at 6.30 p.m. Moscow time (1930 GMT), 9½ hours after blastoff time. He was scheduled to sleep until 3 a.m. this morning (2300 GMT Sunday).

**'Good Night'**  
"Good night, I am going to bed," Titov radioed before signing off for the night.

It had been an active and exciting day for the spaceman. He had operated the controls of his 4½-ton craft, eaten a three-course lunch, exchanged congratulations from space with Premier Khrushchev and Gagarin, eaten supper and gone through setting up exercises, Moscow Radio said.

In between, Titov radioed greetings to Asia, Africa, Australia, Latin America and Europe as he flew over those continents. He also passed

**'I Am Eagle'**  
Titov went into his seventh orbit of the earth at 1442 GMT. This revolution took him over the east coast of North America, Iceland, Scandinavia, Stalingrad, East Persia, the Arabian Sea, Indian Ocean and the Pacific, the broadcast said.

"I am Eagle, I am Eagle," the young Air Force pilot said at one point, in what appeared to be sheer exultation.

About six hours after going through the ordeal of blast-off pressure at 9 a.m. Moscow time (0900 GMT), and after 125,000 miles of travel on the fringes of space, he radioed: "I feel excellent under the conditions of weightlessness."

Ground observers watching him on a TV circuit said at the time of this report he was smiling. Moscow Radio reported.

### Scholars from 18 Lands To Contest Bible Quiz

Contestants from 18 nations will participate in this year's International Bible Quiz, the organizers announced yesterday.

The nations are Malta, Italy, France, Holland, Argentina, Brazil, Uruguay, Finland, United States, Austria, New Zealand, Chile, Belgium, Switzerland, Canada, United Kingdom, and Israel.

The Israeli participants will be eliminated from a list of 327 candidates who will compete in a special preliminary quiz. The list includes youths, students, teachers, housewives, servicemen, and a member of the Samaritan community.

Special provision has been made to enable four blind participants to compete in the preliminary examinations orally.

### Scientific Translations Are Big Export

The Programme for Scientific Translations has become one of the biggest exporters in Jerusalem, with sales of translations to the U.S. Government expected to reach \$200,000 by the end of 1961, the third year of the Programme's operations.

Founded in 1958 by the Prime Minister's Office, the Programme translates approximately 25,000 pages of Russian scientific literature into English each year. First option on the output goes to the U.S. Government. Afterwards, all material may be sold anywhere in the world outside America.

Fifteen European countries have so far ordered \$80,000 worth of books.

## Bonn Navy Getting NATO'S Strongest Missile Ships

BONN (INA). — The West German Defence Minister, Mr. Franz Josef Strauss, during his recent visit to the U.S., bought a quantity of Tartar ship-to-air missiles for the new 6,000-ton destroyers now authorized to West German navy by the West European Union, the Ministry has announced.

The West German Navy is now to be equipped with the most powerful guided missile warships of any NATO fleet, as powerful as the pocket battleships of World War II. A squadron of eight such vessels to the full limit of 6,000 tons — instead of the 3,000 tons authorized earlier, but which proved too small for the modern missiles demanded by the re-arming West Germany — is due to be built and ready for service between 1963 and 1965.

The design of these so-called destroyers, which are actually light cruisers, incorporates the best features of the British guided missile destroyers of the "County" class and the more advanced American guided missile frigates. They will be able to fire the American anti-aircraft missiles.

The treaty prohibiting Germany from building warships larger than 1,000 tons was recently amended by the Council of the Western European Union, following demands by German naval experts that the limit be doubled.

A new type of U-boat of 300-tons, capable of firing more torpedoes in a single salvo than the American nuclear submarine George Washington, will be commissioned this year, according to the West German Armed Forces magazine, "Defence Review".

### Princeton U. Gets Gift of \$35m.

PRINCETON, New Jersey (Reuters). — Princeton University has received an anonymous gift of \$35m. for the establishment of a foundation for its Woodrow Wilson School of Public and International Affairs.

University's President, Dr. Robert Goheen, announced yesterday.

### Verwoerd Sold Seeking One-Party State

JOHANNESBURG (AP). — Prime Minister Hendrik Verwoerd aims to establish a "one-party authoritarian state" in South Africa through the new national elections he has called prematurely for October 18 and which his National Party generally is expected to win, two Johannesburg newspapers, the "Sunday Times" and the "Sunday Express," charged yesterday.

Both papers claimed that one of Verwoerd's aims in calling Parliamentary elections two years early was to "ruthlessly purge" his own party of moderates who objected to his strict racial segregation policies.

The "Express" political commentator said that "when Verwoerd has achieved the purge through the party machine, which he completely controls, the Nationalist Members of the next Parliament are going to be as undeviatingly Verwoerdian as members of any Soviet Praesidium of the Russian boss of the hour."

### Belgian Primate Dies; Fought Nazis and Socialists

### Yanks Keep A.L. Lead Reds Drop Half Game

NEW YORK (AP). — The New York Yankees yesterday won a 3-1 victory over the Minnesota Twins to maintain their 1½-game lead over Detroit in the American League race, as the Detroit Tigers turned in a 7-4 triumph over the Cleveland Indians.

### Surgeons Discuss Noses at Hadassah

The first international scientific seminar to be held at the new Hadassah-Hebrew University Medical Centre opened yesterday — the second International Post-graduate Course in Reconstructive Surgery of the Nasal Septum and External Pyramid.

The students are 20 surgeons, specialists in ear, nose and throat diseases from eleven countries (Algeria, Australia, France, Holland, India, Nigeria, Philippines, Scotland, S. Africa and the U.S.).

Hadassah's Ear Nose and Throat Department, the Hebrew University-Hadassah Medical School and the American Rhinologic Society are joint sponsors of the 10-day course, which is under the direction of Professor Maurice H. Cottle, of Chicago, assisted by a faculty of fourteen specialist instructors from the U.S.

Starting out on the assumption that a programme of modern corrections and alterations in good time to early injuries or deformities of the nose can obviate much nasal illness and sinus trouble, as well as throat and ear difficulty, the seminar will discuss the physiology of the nose, research into allergies, and corrective surgery.

Professor Cottle delivered the inaugural lecture in the auditorium of the Henrietta Ross Hadassah School of Nursing.

### Dental Seminar At Hebrew U.

A group of 150 dentists who arrived from the U.S. yesterday will spend tomorrow at a dental seminar in Jerusalem organized by the Hebrew University-Hadassah School of Dentistry founded by the Alpha Omega Fraternity, in cooperation with the Israel Dental Association.

Of the group, over 60 are members of Alpha Omega, including the President, Dr. Fred Stein, the past President, Dr. Abraham Cohen, and the President-Elect, Dr. Walter Levine. The rest are members of the Bronx Manhattan Dental Study Group.

Lecturers at the seminar will include both visitors from abroad as well as instructors in the local School of Dentistry.

A brief biography of the Soviet Air Force Major said he was born in 1935, in the village of Verkhneye Zhilino of the Altai territory near the Soviet border with Mongolia and Communist China. Titov was graduated from

secondary school in the same district and later learned to fly at the Stalingrad Military Pilot's School in 1955 to 1957. He was graduated with the ratings of excellent, the biography said, and was assigned to the Leningrad military academy.

A candidate member of the Soviet Communist Party, Titov is married to Tamara Vasilyevna, 24. They have no children.

The comrade's father, Stepan Pavlovich Titov, 51, is a retired teacher of Russian language and literature.
